

“Hospital-to-Home” Patient Support Volunteers

Reg Charity No. 290874

If you are able to offer some of your time to support older people, we would be pleased to hear from you.

We are currently looking to engage those within the community who would be able to offer some time to support older patients with their rehabilitation from hospital to home.

Working closely with the Health & Wellbeing Co-ordinator on one of two Wards within a Community Hospital, you would be providing a variety of support activities to promote confidence, wellbeing, mobility and independence so that patients are able to return home safely and comfortably.

Whether you are retired, returning to the workforce, studying or have some free time to offer, this is a worthwhile opportunity to gain experience of supporting the elderly, whilst enhancing and using existing skills. Full training and support will be provided and we would hope that you would gain as much from volunteering as the people that you are so kindly supporting.

If you have the empathy, willingness and commitment required, we would be pleased to hear from you.
